

19 September 2022

Dear Parents,

This year, we will be using a new Student Information System, called “eSchool”. Through your own individual username/password, you will be able to check your son’s/daughter’s progress in school by checking the grades, agenda, absence, behavioral issues, calendar, schedule, fees dues, etc. Also, you will be able to communicate with the school (teachers and administration) by sending/receiving all kinds of messages. As a parent, you will receive ONE username/password for all your children

In order to do so, you must log in with the username and password the school will provide. Access is available through the mobile app or via the website (www.myschoolhome.com). The following two applications need to be downloaded on your phone:

- **eSchool Connect** (this will be the communication, grades, and fees app)
- **eSchool Agenda** (this will be the agenda app for checking HW/CW, weekly schedule, and calendar)

NOTES:

- Optional: You can change the username and password by clicking on your name (photo) and go to profile. Next time you log in, you can use the new username (typed as NewUsername@besgb.p) for parents or (NewUsername@besgb.s) for students.
- Kindly, uninstall all previous apps related to the school (the old application, “Olive”)
- For those of you who are on the school’s Parents WhatsApp groups, we will stop communicating on those groups as of October 1, 2022. All messages, documents, and various notifications will be sent on “eSchool Connect”.

Don’t hesitate to contact our IT department in case you face any technical issues.
